CARRIER OBJECTIVE

I want to become a competent Full Stack developer and discover new things along the road. I am excited to contribute my knowledge and abilities to the company's development.

EDUCATION

•Pranveer Singh Institute of Technology	2023
B.Tech	70
•Florets International School	2021
Intermediate , CBSE	90
•Florets International School	2019
High School , CBSE	95

INTERNSHIPS

•SenseOriginal	2023
<i>I served as a frontend developer at SenseOriginal, a startup specializing in NFC-based applications against counterfeits.</i>	
– Tools & technologies used: Nodejs , NextJs , MongoDB , Docker , Postman	
– The internship spanned a duration of four months and encompassed performance-based bonuses.	

PERSONAL PROJECTS

•IGNITIA	2023
<i>I was one of the developers who created the IGNITIA website. IGNITIA is a festival that is only arranged by students.</i>	
– Tools & technologies used: Nodejs , Selenium , TelegramAPI , Cloudiary , Nextjs , HTML , CSS , JS	
– This endeavour gave me the opportunity to learn about technology that I was unaware of and helped me improve my collaboration skills.	
•Med X RIH	2023
<i>It serves as a centralized platform that connects doctors, patients, and pharmacies, aiming to enhance lifestyle.</i>	
– Tools & technologies used: NextJs , Express , MongoDB , Postman	
– I was able to improve my skill set and clarify a few concepts thanks to this endeavour. as a result of this project, I acquired useful expertise and learned how to deal with challenges.	
•Web RTC	2022
<i>This platform facilitates seamless communication among geographically distant individuals in real-time.</i>	
– Tools & technologies used: ReactJs , Express	
– Thanks to this experience, I was able to enhance my skill set and start my journey as a full-stack developer. It helped me clarify doubts and gain real-life problem-solving experience.	

TECHNICAL SKILLS AND INTERESTS
